**Complimentary GEO Webinar on the Future of Equity Compensation to
Feature EASi's CTO**

Ebersole to Discuss Trends, Implications and Merits of True Enterprise Collaboration

Pleasanton, CA – July 21, 2009 –Equity Administration Solutions, Inc. (EASi), the leading independent equity compensation management software company, today announced that Mark Ebersole, President and Chief Technology Officer, will present “The Future of Equity Compensation Management - Trends, Implications and Success Strategies,” at 8:30 PDT on July 28th as part of the Global Equity Organization (GEO) webinar series.

According to Ebersole, “the future of equity compensation management will demand greater efficiency, lower cost, new levels of workforce productivity, real-time communication and less reliance on IT resources.” The ability to foster true enterprise collaboration and streamline key processes will require a paradigm shift that will be essential to addressing future challenges.

This webinar will examine five trends and the implications they have for stock plan administrators and finance professionals charged with equity compensation management and reporting. Learn what it will take to future proof your equity compensation solution. Understand how the concept of true enterprise collaboration is applied to Sell to Cover Exercise scenarios. Learn how a more collaborative model can enable your company to save time, save money and ensure compliance with complex regulatory requirements associated with stock plan accounting, administration, corporate tax and disclosure.

To register for the complimentary webinar go to:
